ABOUT ME

Frontend Developer with 3 years of professional experience building user-friendly and high-performance web applications using JavaScript, TypeScript, React, and Next.js. I focus on creating clean interfaces, managing state with Redux Toolkit, and handling data efficiently using React Query. I have experience working with APIs and solving real-world problems in agile teams. I'm also familiar with Node.js, Express, and MongoDB, allowing me to contribute to full-stack development.

SKILLS

Languages: JavaScript, TypeScript, React.js, Next.js, React Vite, HTML, CSS, React query, Bootstrap

UI Libraries & Styling: Tailwind CSS, Ant Design, Material-UI, Styled-Components, React Hook Form

State Management: Redux Toolkit, Context API

Backend: Node.js, Express.js

Tools & Platforms : VS-Code • Postman • GIT • GitHub • GitLab • Netlify • NPM • Chrome DevTools

WORK EXPERIENCE

Frontend Developer (Software Engineer)

Jul 2022 – Oct 2025

- Developed dynamic and interactive user interfaces using HTML, CSS, JavaScript, TypeScript, React.js, Next JS, Material-UI, Tailwind CSS and Ant Design, ensuring seamless functionality through RESTful API integration.
- Actively contributed to coding tasks, implementing features, and resolving bugs as part of an agile development team.
- Optimized performance with code improvements, image compression, and lazy loading, boosting load times and user engagement.

PROJECTS

Linkedin Clone

Built a full-stack LinkedIn Clone using React.js, Tailwind CSS, Node.js, Express.js, and MongoDB with secure user authentication, post creation and deletion, like and comment functionality, real-time feed updates, and follow/unfollow requests. Developed RESTful APIs for smooth frontend-backend integration and optimized database operations for performance and scalability.

Food Delivery App

Developed a Food Delivery App using React.js, Tailwind CSS, Node.js, Express.js, and MongoDB. Enabled users to view food menus with descriptions, add or remove items, update quantities, and auto-calculate the total bill with a responsive, user-friendly interface.

Basic Mining

Developed front-end for Basic Mining's website using Next.js and Material-UI. Built responsive UI components showcasing mining hardware, hosting services and pricing, integrated dynamic content for service plans and member access, and ensured seamless user experience across devices.

EDUCATION

Masters in Computer Application

07/ 2021 - 04/ 2023

Lovely Professional University(LPU), Jalandhar, India

Bachelors in Computer Application

07/ 2017 - 06/ 2021

R.M College, Bihar, India
